## PROJECTS

**E-COMMERCE APPLICATION –** [pair-care. live](#)

- I **developed** an e-commerce platform with separate admin and customer models using Next.js, Tailwind CSS, and Node.js.
- I have **Implemented** customer features like product browsing, cart/wishlist management, online payment via Stripe, order tracking, product reviews, and invoice downloads, with manual and Google authentication.
- I **Built** an admin dashboard for product management, sales tracking, order status updates, and banner management, leveraging Recharts, Headless UI, and MongoDB.
- **Integrated** Stripe with a webhook to **automate** payment processing, order management, and email/SMS notifications, **enhancing** user engagement and operational efficiency.

**WHATSAPP WEB APPLICATION -** [chat.pair-care.live](#)

- **Architected** a WhatsApp web app with Node.js, React, and MongoDB Atlas, enabling real-time chat and media sharing.
- **Integrated** video/audio calls and SMS notifications, boosting user communication.
- **Designed** user status updates and profile editing features, enhancing UX.
- **Secured** the app with token authentication and **deployed** it using React (frontend) and Render (backend).

**NETFLIX FEATURE DEVELOPMENT -** [chill.pair-care.live](#)

- **Led** Netflix feature development (login, signup, search, payment) to enhance UX.
- **Integrated** IMDB for accurate movie data display.
- **Implemented** Firebase authentication for secure user accounts.

- **Utilized** react-youtube for trailers, **deployed** frontend on Next.js, backend on Render.

## EDUCATION
**BACHELOR OF COMPUTER APPLICATION – BCA**         **2021-2024**
Mangalore University (St Philomena College)
CGPA: 8.89/10

## ACHIEVEMENTS
- **4 First Prized & 2 Second Prizes** in inter- College Web Design Competitions
  Recognized for innovative design and development skills in competitive environments,
- **First Prize** in College Hackathon
  Led a team to develop a winning project, demonstrating leadership, teamwork, and problem-solving abilities
